Hentai University Cheat codes

- **Blacklist** - Adds a button beneath each image that will prevent it from ever appearing again. Use the codes export blacklist and import blacklist to share removed images.

- **New Name** - Allows you to rename the cast.

- **Pervert** - Characters now wear no clothes or lewd clothing in dialogue, logbook, and in some introduction scenes. Use again to disable.

- **Vegetarian** - Removes the game's male cast, for those who don't want any meat with their meal. Use again to toggle.

- **Carnivore** - Removes the game's female cast, for all the meat-lovers out there.

- **No disguise** - Removes the disguise over the player's speech in Sofia's scenes.

- **Cash money** - Gives you $100 in cash money.

- **Nuclear option** - Improves all stats to a high enough level for you to see all the content.

- **find mii** - Makes all available encounters appear on the town map, so you don't need to wander about as much. You still need to meet the character at least once for them to appear like this!

- **mega easy** - A large mass of quality of life changes. Namely every character appears on the town map, each day you're automatically moved to the town map at the start, no more end of day messages, increases to your stats, and $1000.

- **Eyestrain** - Makes ghosts easier to hunt.

- **You will call me** - Changes the master / mistress title to whatever you might prefer.

- **Good boy** - Reduces your corruption to 1.

- **Thomas** - Returns you to the prologue with a male picture, causes you to be referred to with male pronouns. No progress is lost this way.

- **Tomara** - Returns you to the prologue with a female picture, causes you to be referred to with female pronouns. The player still has a dick.

- **Human Alteration App** - Unlocks the human alteration app sub route protagonist as a profile image. Cosmetic only, art by Aya.

- **Princess Quest** - Unlocks the princess quest protagonist as a profile image. Cosmetic only, art by Neromashin.

- **Rainy DayZ** - Unlocks Jill Valentine as a profile image. Cosmetic only, art by unknown artist.

- **Prude** - Disables the pervert cheat.

- **Nuclear option** - Improves all stats to a high enough level for you to see all the content (hypnosis, hacking, and counselling).

- **Spookwave** - Test out the in-progress ghost hunting minigame.

- **oowoo** - Dis makes de game unpayable.

- **Lobotomy** - Changes the game's visual style to one I'm more comfortable reading with a larger font, stronger menu buttons, and frames that pop a bit more. Loosely based on Lobotomy Corporation in design..

- **Persona** - Changes the game's visual style to one based on the Persona games, specifically Persona 5.

- **Royalty** - A work in progress visual style based on vaporwave but without the flickering, only the dialogue boxes are changed but I think they look pretty cool..

- **Stiggy752** - Returns the game to its default visual style.

- **No disguise** - Removes the disguise over the player's speech in Sofia's scenes.
