CARNAL OUTBREAK

Developer's Tips

"Carnal Outbreak" is a pornographic game that parodies the old "Survival Horror" video games of the late 90s and early 00s.

While the game primarily emphasizes erotic content, it also incorporates mechanics typical of the aforementioned genre. It is therefore imperative that you diligently monitor your ammunition reserves, as firearms will serve as your primary defense against the dreadful creatures encountered throughout your journey.

CARNAL OUTBREAK

Developer's Tips

In the game you can also search for materials in the environment to make secondary weapons, for example if you find a dry cloth and a bottle of alcohol, you can make molotov cocktails, so please try to be attentive to your environment, as many objects will be hidden around the map.

CARNAL OUTBREAK

Meet Eveline

After discovering her husband's infidelity and going through a painful divorcing process, Eveline lost her family and home in the blink of an eye.

Left behind by her now ex-husband and her son, Eveline decides to migrate to Turdus city in search of a new life.

However, the beautiful mature woman was not aware of the wreckage she would have to face in her new home...

CARNAL OUTBREAK

After settling into her new home, Eveline was eager to inject some excitement back into her life, so she decided to enlist in the city's police force.

Although initially intimidated, Eveline soon grew to love her new profession. Despite joining the police force at the age of 37, the mature woman soon stood out from the rest of the cadets, displaying an optimal physical condition and, above all, relentless marksmanship.

After passing the tests with ease, Eveline proudly received her police officer's badge.

Turdus Police Departament

Name: Eveline Bondar Rivero

Date of birth: March 08th, 1959

Sex: Female
