Statistics

Progression level: After a series of quests, a girl level up. It will change what happens with her scenes in the roaming step, partially or totally.

Affection: This is for later game, to unlock scenes involving more than 1 girl during TV, Cook, dinner, or Jacuzzi. It's mainly for their future high level.

Members of the same family won't touch each others, it could take many forms such as contests or turns on you.

It will also impact the ending of the game if girls accepts other girls does things with you or not.

Capped at 25 for now, not content uses it yet.

Hand skill, tongue skill, cock skill: These are used to pass a quest or not. If you're good enough you pass, if you're not then you'll have to train it at the pc and retry. It maybe be subject to a rework of values earned and required in the future.

Money: To buy things, required to complete some quests. You can create a daily income at the computer that evolves with the girls' levels. You need to update it to take the new levels into consideration.

First times, numbers of cum could be used in future sentences or reactions, but there is nothing for now.

*Balcony 2 is the balcony next to Berry's room

After you pass the time, it can be with the clock, taking shower, or other events, girls are moving in the house, doing something else.

Girls will enter your room each morning, in this order:

Sarena	Balcony 1	Balcony 2	Living room	Backyard
Emma	Dining room	Backyard	Computer	Kitchen
Berry	Kitchen	Berry's room	Backyard	Balcony 2
Valerie	Backyard	Kitchen	Balcony 2	Valerie's room

Morning wake-up order:	Berry	Emma	Sarena	Valerie
------------------------	-------	------	--------	---------

	09:00 AM	02:00 PM	06:00 PM	10:00 PM
Shower Time	Emma	Sarena	Valerie	Berry

The Quests

When you start a new game, this is the quickest way to work Day 1:

- Talk to **Sarena** at the balcony, pass the time, clock or Shower.
- Talk to **Berry** in her room, pass the time, clock or Shower.
- Talk to **Emma** at the computer, pass the time, clock or Shower.
- Talk to **Valerie** in her room, then go to the living room. (Shower will bring you to the next day but you can do it)
- Start the party

From there you can choose who you want to develop.

Don't forget to start your "Business" at the computer, try daily life scenes in the map before leveling them up, not to miss anything.

In the girl's tab you can see everything you have to do to continue her quest.

- If it's written "Wait for her to take action" most of the time it means you just have to pass the time until it triggers.
- If it's written to find her then look for her icon on the map.

After you finish the quests, the girl should **level up**, then you should try again all daily activities, you could find new scenes/animations or just dialogue evolution.

FAQ

When is the next update?

I propose a new update every end of month for my beta-testers patrons on Patreon, you can become a beta-tester here:

After a delay, approximately a week, after debugging and fix, I post the new content on the internet for free.

The .apk doesn't work, why?

A common issue is when you download the .apk, you click on your download and it says impossible to open it. The solution that worked for me and many people was like this: In your smartphone, you have to open your file explorer, and choose to show file "APK" (Where you can choose to show image, videos etc...) and then open it from the APK folder. when you try to open it by clicking on your latest download, it doesn't try to install it.
