New Earth

Chapter 02 - Version 0.7 (Final) Walk-through

Story: In 2121, interstellar travel isn't a problem anymore. A group of students won a prize to travel to Kepler-452 star system. But right before they could change their route back home, they received a transmission that the Earth had just been destroyed by a worldwide cataclysm. They had to land on Kepler-452b planet, a habitable planet. As the leader, you'll have to help everyone start a new life and populate (**Pregnancy**) the **New Earth**. (Please notice that there are no tentacles, aliens, monsters... in the story.)

Possible Endings (depending on your choices):

- **Tyranny** (Harem): You become a tyrant, have all women for yourself. The other men are your slaves.
- **Democracy** (Sharing): The society becomes a harmony democracy, where everyone has the chance to get laid.
- Anarchy (NTR): A guy not you becomes the new leader. Under his rule, the society becomes a disaster (especially for you).

Pregnancy depends on what happened in Chapter 01. But you still can make the girls pregnant at the end of Chapter 02 no matter which route you are on. In the Cuckolded route, Delilah and Gabrielle are already pregnant. The rest will also get pregnant at the end of the game.
