WALKTHROUGH

About PutMeOn: **The plot of the game is quite simple and does not require much step-by-step instructions for this. But there are hidden scenes and storylines in the game that may be difficult to find!**

v0.0.7:

ANIMATION WITH HELEN 18+

To find a plot with Helen, but thereby worsen your relationship with your sister, you will need to follow these steps:

- 1 - Go to Charlie's house for the first time, (according to the story)
- 2 - Talk to Charlie and Helen, the main character will talk about his achievements in his store application.
- 3 - While you were in the hallway, you heard Helen calling Charlie to help her.

In the selection menu, click on (**Go upstairs and check on Helen**)

The main character will go upstairs and see the slightly open door to Helen's room.

In the next selection menu, **refuse to peek at Helen**, then Conrad will go down and call Charlie to help his sister.

Further, move along the plot, on the way home, Helen will meet Conrad and invite him to go to the gym with her.

(Then choose at your own discretion, if you want an animation with Helen, then **agree to go with her to the locker room** at the end of class).

v0.0.8 (beta)

HIDDEN PLOT WITH SISTER AFTER A NIGHTMARE 18+:

1. The main thing you should do is not to go with Helen in gym, then your sister will be confident in you!
2. Your relationship with your sister should be 7+ (how to do it?) It's simple, **watch her when she changes clothes, agree to sleep with her when she asks you to, kiss her after you return from Charlie**, these are the basic actions that are important!
3. After the nightmare with the voice in the void has passed, Conrad will find himself groping his sister!

(Then do as you please)

FATHER AND DAUGHTER FLASHBACK SCENE 18+:

Warning! Violent content

Everything is very simple here, when there is a choice according to the plot, whether to read the note or not, choose (**Read the note**)

After which, you will see scenes from the past!
