# Relationship Quests

By gifting a girl you get closer and more intimate with her, after a while you will get a notification when you sleep on your bed that your **relationship with [girl name] has increased**. That can be seen later by checking your item *Bengala's Journal* if the girl has increased a *Heart Point*.

- When your *Heart Point* Increases you gain access to a quest for that girl, and after you complete it you will be able to see a repetitive smut scene;
- When your *Heart Point* changes (It reaches a new level) the girl day to day dialogues will change.

Each girl has different Likes, Loves, Dislikes, and Hates, related to gifts. It is highly recommended to start at Elinnie quest, since this is the easiest quest you can do at lower levels (1-2), with finishing near level 4-5. It is also important to notice that Lene quests have futa content.
