

UNCONTROLLABLE LUST

In this game there are four types of variables been used

- Relationship Points – (RP)
- Lust/Love Points – (LP)
- Pregnancy Points – (PP)
- Alpha Points – (AP)
- Events Variables – (True)

Some events/options/scenes will only appear when you have enough points relating to it.

In case of scene you will get a message saying if you have low points but if you missed an event trigger you will not see the options in the menu when that event occur.

“<” This will show you which option you should select so that in future you don’t miss anything.
